General Advising Notes

This program is designed for students who have at least five years of supervisory experience. Interested students need to contact the department chair who will assign the appropriate mentor. Qualified students will work with their mentor to develop a portfolio to document their learning in the workplace. At a minimum the portfolio will include a reflection essay and documented and verifiable evidence to support the student's claim to college level learning. No credit will be awarded until the successful completion and assessment of the portfolio.

Helpful Hints

15 to FINISH

Take 15 credit hours a semester to finish your degree in two years.

The completed portfolio must be submitted two semesters before the student plans to graduate in order to allow ample time for evaluation by the appropriate faculty, Chair and Dean.
