## Instructions to Create an Electronic e-Portfolio

An e-Portfolio is a way for students to electronically record their academic and extra-curricular achievements. It's a great place to keep track of things such as: career assessment results, top careers of interest, student club involvement, volunteer service, classroom projects, and work experience, just to name a few.  Building your e-Portfolio should be done over time with new information added each semester.

Career Services currently recommends using the free Google e-Portfolio platform.  Follow the steps below to begin creating your e-Portfolio today.  For additional information, contact Career Services at (901) 333-4180 or careerservices@southwest.tn.edu.
