Material Safety Data Sheet
4-Aminobenzoic acid, $99 \%$

MSDS\# 98368
Section 1 - Chemical Product and Company Identification
MSDS Name: 4-Aminobenzoic acid, $99 \%$
Catalog AC146210000, AC146210010, AC146210050, AC146211000, AC146212500, AC146215000
Numbers: AC146215000
Synonyms: p-Aminobenzoic acid; PABA; 1-Amino-4-carboxybenzene.
Acros Organics BVBA
Company Identification:
Janssen Pharmaceuticalaan 3a
2440 Geel, Belgium
Acros Organics
Company Identification: (USA)
One Reagent Lane
Fair Lawn, NJ 07410
For information in the US, call:
800-ACROS-01
For information in Europe, call:

Emergency Number US:
201-796-7100
CHEMTREC Phone Number, US:
800-424-9300
CHEMTREC Phone Number, Europe:
703-527-3887
Section 2 - Composition, Information on Ingredients

Section 3 - Hazards Identification
EMERGENCY OVERVIEW
Warning! May cause allergic skin reaction. Irritant. Air sensitive. May cause methemoglobinemia. Material is light sensitive and may discolor on exposure to light. Causes eye, skin, and respiratory tract irritation. Target Organs: Blood, liver, respiratory system, eyes, skin.

## Potential Health Effects

Eye: Causes eye irritation. May cause chemical conjunctivitis.
Skin: Causes skin irritation. May cause skin sensitization, an allergic reaction, which becomes evident upon reexposure to this material. May be harmful if absorbed through the skin.

Ingestion: May cause gastrointestinal irritation with nausea, vomiting and diarrhea. May cause acute hepatitis. Overexposure may cause methemoglobinemia.
Inhalation: Causes respiratory tract irritation. May be harmful if inhaled.
Chronic: Repeated exposure may cause sensitization dermatitis.

Eyes:
Immediately flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and lower eyelids. Get medical aid.

Skin:
Get medical aid. Flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse.
Never give anything by mouth to an unconscious person. Get medical aid. Do NOT induce vomiting. If conscious and alert, rinse mouth and drink 2-4 cupfuls of milk or water.

Inhalation:
Remove from exposure and move to fresh air immediately. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid.
Notes to
Physician:
Treat symptomatically and supportively.

## Section 5 - Fire Fighting Measures

As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved

General Information: or equivalent), and full protective gear. Dusts at sufficient concentrations can form explosive mixtures with air. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

Extinguishing Media:

Use water spray, dry chemical, carbon dioxide, or appropriate foam.

## Temperature: Not applicable

Flash Point: Not applicable.
Explosion Limits:
Lower: Not available
Explosion Limits: Upper:

Not available
NFPA Rating: health: 2; flammability: 1; instability: 1;

## Section 6 - Accidental Release Measures

General Information:

Use proper personal protective equipment as indicated in Section 8.
Vacuum or sweep up material and place into a suitable disposal container. Clean up spills immediately, Spills/Leaks: observing precautions in the Protective Equipment section. Avoid generating dusty conditions. Provide ventilation.

## Section 7 - Handling and Storage

Wash thoroughly after handling. Wash thoroughly after handling. Use with adequate ventilation. Minimize dust Handling: generation and accumulation. Avoid contact with eyes, skin, and clothing. Keep container tightly closed. Avoid ingestion and inhalation.

Storage:
Do not store in direct sunlight. Keep container closed when not in use. Keep under a nitrogen blanket. Store in a cool, dry, well-ventilated area away from incompatible substances.

Section 8 - Exposure Controls, Personal Protection

OSHA Vacated PELs: 4-Aminobenzoic acid: None listed
Engineering Controls:
Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower. Use adequate general or local exhaust ventilation to keep airborne concentrations below the permissible exposure limits.
Exposure Limits
Personal Protective Equipment
Eyes:

Skin:
Clothing: Wear appropriate protective clothing to prevent skin exposure. Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a Respirators: NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

Section 9 - Physical and Chemical Properties
Physical State: Crystalline powder
Color: white - light yellow
Odor: Not available
$\mathrm{pH}: 3.5$ ( $0.5 \%$ aq. soln.)
Vapor Pressure: Not available
Vapor Density: Not available
Evaporation Rate: Not available
Viscosity: Not available
Boiling Point: Not available
Freezing/Melting Point: 186-189 deg C
Decomposition Temperature: Not available
Solubility in water: Soluble in water.
Specific Gravity/Density: Not available.
Molecular Formula: C7H7NO2
Molecular Weight: 137.0545
Section 10 - Stability and Reactivity
Chemical Stability:
Conditions to Avoid:
Incompatibilities with Other Materials
Hazardous Decomposition
Products
Hazardous Polymerization

Stable under normal temperatures and pressures. May discolor on exposure to light. Air sensitive. Light sensitive.
Light, dust generation, exposure to air.
Strong oxidizing agents.
Carbon monoxide, oxides of nitrogen, carbon dioxide.
Has not been reported.
Section 11 - Toxicological Information

RTECS\#: CAS\# 150-13-0: DG1400000
RTECS:
CAS\# 150-13-0: Oral, mouse: LD50 $=2850 \mathrm{mg} / \mathrm{kg}$;
LD50/LC50: Oral, rabbit: LD50 $=1830 \mathrm{mg} / \mathrm{kg}$; Oral, rat: LD50 $=>6 \mathrm{gm} / \mathrm{kg}$;

Carcinogenicity: 4-Aminobenzoic acid - IARC: Group 3 (not classifiable)
Other:
The toxicological properties have not been fully investigated. See actual entry in RTECS for complete information.

Section 12 - Ecological Information
Ecotoxicity: Bacteria: Phytobacterium phosphoreum: EC50 $=27.4 \mathrm{mg} / \mathrm{L} ; 30$ minutes; Microtox test; 15 degrees C
Section 13 - Disposal Considerations
Dispose of in a manner consistent with federal, state, and local regulations.
Section 14 - Transport Information
US DOT
Shipping Name: Not regulated.
Hazard Class:
UN Number:
Packing Group:
Canada TDG

Shipping Name: Not available
Hazard Class:
UN Number:
Packing Group:

## Section 15 - Regulatory Information

## European/International Regulations

European Labeling in Accordance with EC Directives
Hazard Symbols: XI
Risk Phrases:
R 36/37/38 Irritating to eyes, respiratory system and skin.
Safety Phrases:
S 26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
S 37/39 Wear suitable gloves and eye/face protection.
WGK (Water Danger/Protection)
CAS\# 150-13-0: 1
Canada
CAS\# 150-13-0 is listed on Canada's DSL List
Canadian WHMIS Classifications: D2B
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations and the MSDS contains all of the information required by those regulations.
CAS\# 150-13-0 is listed on Canada's Ingredient Disclosure List

## US Federal

TSCA
CAS\# 150-13-0 is listed on the TSCA
Inventory.
Section 16 - Other Information
MSDS Creation Date: 6/24/1999
Revision \#5 Date 7/20/2009

The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantibility or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall the company be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential, or exemplary damages howsoever arising, even if the company has been advised of the possibility of such damages.
